

SCOPE OF ACCREDITATION

(from ANAB- ANSI-ASQ National Accreditation Board)

ISOQAR has a massive scope of accreditation, with auditors experienced in virtually all sectors of industry and commerce. Below you will find a listing of the areas within which we are ANAB approved to provide accredited certification.

They are categorised under general headings, using the European (EAC) codes adopted by ANAB. The detailed list of specific activities is too large and comprehensive for us to distribute. If you would like confirmation that we have scope to audit your particular area of business, please return the short questionnaire from our information pack. This will help us understand your business and also enable us to provide you with a no-obligation quotation for your ISO 9001 assessment.
